

# Research into Handedness/Birth Signs

The research is to test the hypothesis that there is a higher incidence of left-handed people involved in the research and IT sectors (incidence in the total UK population is currently 11-12% and rising among the <50 year olds; in contrast >30% of people in China are left-handed). Secondly, to find out whether there is any correlation between handedness and birth signs/gender.

1. What gender are you?

Male	1
Female	2

2. Are you right or left-handed? (If ambidextrous count as left)

Right	1
Left	2

3. What is your birth sign?

Aries	1	Libra	7
Taurus	2	Scorpio	8
Gemini	3	Sagittarius	9
Cancer	4	Capricorn	10
Leo	5	Aquarius	11
Virgo	6	Pisces	12

If you don't know, please write in your date of birth

---

4. Would you describe your job as primarily involved with research, IT or something else (more than 50% of the time)?

Research	1
IT/DP	2
Something else (complete below)	3

---

5. Country of birth?

UK	1
Outside UK	2

## Your Details

Name: \_\_\_\_\_ email address: \_\_\_\_\_

Please indicate whether you are interested in being informed of the results.

Yes	1
No	2
